SUPPLEMENTARY INFORMATION:

The electronic distribution process for NRC public documents was first utilized by the Office of Nuclear Reactor Regulation in 2008 (ADAMS Accession No. ML082750550) for operating reactor correspondence. The Division of Decommissioning, Uranium Recovery, and Waste Programs in NMSS already uses Listserv to distribute correspondence for Waste Incidental to Reprocessing (82 FR 33160; July 19, 2017), reactors in decommissioning (83 FR 49434; October 1, 2018), and low-level waste (84 FR 40440; August 14, 2019) program documents. Public feedback regarding this process has been positive. This process distributes public documents generated by the NRC staff to individuals who are registered for the Listserv. The Listserv does not provide notice of documents generated by external parties, or NRC documents that contain proprietary, security-related, safeguards, or other information that is withheld from public disclosure.

This Listserv will be implemented on September 30, 2019. Individuals may subscribe to receive licensing and inspection correspondences for fuel cycle facilities

through the following steps: (1) go to the NRC's public Web site and (2) select "Public Meetings & Involvement," (3) select "Subscribe to E-mail Updates," (4) select "Fuel Cycle Facilities Correspondence," (5) enter the e-mail address through which you want to receive notices from the NRC Listserv, (6) check the box(es) to select the facility or facilities of interest, and (7) click on "Subscribe."

Once subscribed, you will receive an e-mail confirmation from the NRC with instructions for managing your NRC Listserv subscription, including how to change your e-mail address and how to unsubscribe. You are responsible for ensuring that the NRC Listserv has your current e-mail address.
